Local Men Take Part In Kick-Off Dinner In Boston

Wilmington was represented by William Altman and Meyer Weinberg at the Kick-off dinner of the Metropolitan Division of the 1948 Combined Jewish Appeal of Greater Boston, held Monday night at the Parker House in Boston. Mr. Altman is the 1948 Chairman of the Wilmington Combined Jewish Appeal.

The kick-off dinner marked the first get-together of the recently organized Metropolitan Council of the Combined Jewish Jewish Appeal for the 1948 season. Saul Kessler of Chelsea, Council president, reported briefly on the developments to date.

The Combined Jewish Appeal of Greater Boston mobilizes local support for the United Jewish Appeal which raises funds for the mass immigration, settlement, and agricultural and economic development of Israel; for relief and rehabilitation of Jews in European lands; and for the adjustment of refugees who reach the United States. The Combined Jewish Appeal also supports the Associated Jewish Philanthropies, composed of local agencies, and over 190 other national and overseas organizations.

Metropolitan Division Chairman William Cantor made his first appearance as head of the group which last year raised over one million dollars. Other speakers were Louis R. Golden; general chairman of the $12,000,000 Greater Boston Combined Jewish Appeal, and Captain E. M. Ben Dror, active member of the Army of Israel who has participated in numerous battles with Arab bands.

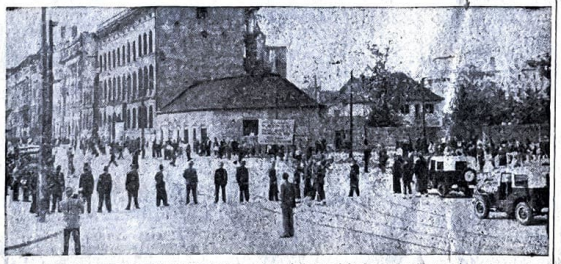
VISUAL PROTEST AGAINST PEACETIME DRAFT . . . All over the nation young men were lining up again. The occasion was the second peacetime draft in the U. S. within eight years. There were the usual long lines of impatient men wanting only to sign up and get it over with. And there were the usual delays and snarled up procedure. In short, the draft registration seemed to be progressing pretty normally, even to the inevitable "protests." In Boston, as soldiers looked on, a group of picketers carrying placards objecting to the draft marched in front of the first corps cadet armory during the first registration day. Shortly after this picture was taken, three young men were arrested for "sauntering and loitering."

HERE COME SOME ARMY BACKS . . . All right, get out the blankets and hot water bottles. The football season is coming up again. In that connection, one of the big questions is how the mighty Army team will do this year. Here, four of the cadet backs who are expected to see first string duty this year make their 1948 debut in front of a camera at Army's first practice session. They are (left to right in air) Arnos Gillette, halfback, Wilson, N. C.; Rudolph Consentino, fullback, Seneca Falls, N. Y.; Arnold Galiffa, quarterback, Donora, Pa., and Robert Stuart, halfback, Tulsa, Okla.



WHERE EAST MEETS WEST IN BERLIN . . . One of the most tender and aching spots on the bruised body of this trouble-plagued world is the Potsdamer plats in Berlin where Russians, Americans and British all stand within arm's length of each other and don't feel too happy about it. There have been Russian forays across the line, ostensibly in search of black marketeers. There have been kidnapings of western Berlin police and there have been seizures of Americans who strayed a fool over the line. Here is a long line of U. S. MPs and jeeps drawn across the street to prevent influx of black marketeers into American zone.

Westminster Hall

Westminster hall in London, built in 1079, adjoins the new palace yard—"new" in 1094. Westminster hall saw the gathering of the noted parliament of 1265. The trial of Charles I, later beheaded, was held there. So was the trial of Guy Fawkes, who in 1605 planted gunpowder in the cellar to blow up parliament. His unsuccessful exploit long has been commemorated by a traditional search of the cellars before each parliamentary session.

The Once Over
ST. PETER'S STADIUM
By H. I. PHILLIPS

Whatever means as much as an "all-hot" is getting quite a play today in that Valhalla to which baseball folks go. The angels, we like to think, have set aside their wings and are in shirt sleeves. The bars have been let down somewhat. St. Peter is not so strict on the gate; those not quite eligible are permitted knotholes. Arguments are not frowned on and a little ribbing goes. For the first time, perhaps, it is all right up there to throw a pop bottle.

It is curious how many potentates and great ones of the earth are in the bleachers and how many folks who were not great shakes when on earth have the box seats. It's very special. The scores have been kept with great care. Those who did it the hard way, who triumphed over handicaps, who came through against odds are being smiled on. There is an enormous section for lost sheep and prodigal sons.

The harps are put aside for brassier instruments and for tin horns and super-noise makers. Gabriel himself leads a cheer and the Bambino enters. He rubs his eyes. "It's all right, a voice of infinite tenderness tell him. "What's all this? Where ar I?" asks the Bambino, young an vital. "It would take too long t explain," says the Voice, "and yo might not find it easy to unde stand. Political Kettle Is Boiling

THE long-simmering political kettle has reached the boiling point.

On the national stage, the cooking started when Harry Truman and Thomas Dewey formally squared off before Labor Day audiences. Simultaneously, a number of equally exciting and significant state contests were joined.

To the smart politicoes, these local battles are second in importance only to the "big top" melee. For the politicoes know that what happens in these state arenas will profoundly affect not only the national contest but also the shape of things afterward.

The control of congress, of powerful organizations in key states, and, in the event Mr. Truman loses, of the national Democratic machinery, are at stake in these tests.

Intensifying the concern of the political generalissimos are two factors: The great body of "undecided" voters, manifest in every important poll; and the spectacular upset of Memphis Boss Crump by crusading Rep Estes Kefauver. To the professional politicoes, these two items spell uncertainty. Anything can happen. The general public is itchy and new and fresher-sounding voices have a strong appeal.

Eye Poppers in Budget

Preliminary budget estimates submitted by the army and navy for next year are eye-poppers.

The two services are asking for approximately five billion dollars more than the 16 billion dollars congress voted them this year. The navy wants more than 11 billion dollars and the army more than 10 billion dollars.

This stupendous 21 billion dollar total does not include air force estimates. They are still to come and are sure to be not less than 7 billion dollars.

The 1949 budget is already in preparation. It will be submitted to the new congress in January by President Truman, whether he is re-elected or not. If they win, G.O.P. leaders privately are planning to demand a voice in preparation of the budget.

The reason one of the lawyers (on 42nd street) is never in after 6 p. m.: He's at the Harem waiting on tables. . . . Not once, they say, has Mr. Truman sat on his new porch. Too visible from the street; self-conscious of oglers. . . . A Philly spender (making our bistros) is perfected at all times by a female bodyguard! WESTBROOK PEGLER

Labor Unions Destroy Freedom

THE miscalled labor movement of this period in American history is fundamentally vicious and destructive of the freedom which the American Constitution tries to provide.

This union government is a European system imposed on Americans by immigrants who became naturalized in the legal sense and so acquired citizenship but never entirely ceased to be Europeans and never entirely became Americans. To be sure, it was adopted and vigorously promoted by many native Americans such as John L. Lewis and similar selfish opportunists.

Pegler

They played unionism as a political game—a violent and often fatal game, like jousting—but still a game inferior to the higher and finer business of public government. But it has been imposed on the millions of Americans both within and outside the unions, all subject to their brutal power, by a few men of European birth.

At this writing, about one-fourth of the numerical strength of the American union movement is ruled by three foreigners. But, worse, the prevailing concept of the rights and duties of men, which is shared even by the most strident native Americans, such as Dave Beck of Seattle, is a foreign idea absolutely at war with American freedom. THESE AMERICAN NATIVES, IN THEIR ENTHUSIASM FOR THE CHASE, HAVE FORGOTTEN WHAT THE STATUS OF THE CITIZEN SHOULD BE UNDER FREEDOM AND POPULAR GOVERNMENT.

It would be bad enough that Americans were permitted to sign away their civic rights and human freedom in the republic voluntarily and in foolish enthusiasm over illusory benefits. But it is a violent attack on the liberty of the whole people when the national and state governments compel millions to submit to this total authority against their will or without consultation. Such unwilling millions of Americans have been robbed of billions of dollars in dues, assessments, fines and "contributions." AND THE WHOLE UNION MEMBERSHIP, VOLUNTARY, NONCOMMITTAL AND UNWILLING, HAS LOST AN IMPORTANT DEGREE OF ITS FREEDOM.

Household Hints

Leave piano keys exposed to the light during the day, but away from the windows. Darkness hastens the natural yellowing of real ivory.

—•—

Wax applied to the dustpan helps dust slide off easily; and wax applied to the painted surface of washing machines helps prevent rust.

—•—

Combine maple syrup and marshmallow cream, using half a cup of the sirup to one-quarter cup of the cream, for an ice cream topping.

—•—

When rags are too worn for household use, wash and store in a paper bag in the garage for the men to wipe their hands on when tinkering with the car.

—•—

Spinach is best cooked when you use just a little water. The water that clings to the leaves after washing is all you need. And don't overcook spinach. Five to ten minutes should be enough. A pbund of greens will serve about three persons.

Harsh Laxatives are NOT necessary for most people

The juice of a lemon in a glass of water, when taken first thing on arising, is all that most people need to insure prompt, normal elimination.

No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you!

Generations of Americans have taken lemons for health—and generations of doctors have recommended them. They are rich in vitamin C, supply valuable amounts of B_1 and P. They alkalinize, aid digestion.

Not too sharp or sour, lemon in water has a refreshing tang—clears the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days.

Scouts Hold Their First Fall Meeting

The Boy Scouts held their first meeting of the fall season last Friday night at Scout Headquarters on Church St. The following Scouts were present: R. Androski, E. Cole, P. Cornish, P. LeTellier of the flaming Arrow Patrol: W. Anstey, M. LeBlanc, R. Anstey, C. Ferguson of the Cheyenne Patrol: C. Detato and A. Mac Mullin of the Panther Patrol After the opening of the round-up meeting with the Pledge to the Flag and the Scout Oath, the group gathered for a discussion of the coming year's program. This was followed by a surge of action. Last winter it was difficult to keep warm due to the leak that had developed in the hot air furnace that had been given us, a few years previous, by Mr. Weinburg. We received heat, but mixed with smoke made comfortable breathing impossible. The furnace was taken apart by the boys but found to be beyond repair. A donation of a Hot Air furnace would be very welcome at this time. Allan Mac Mullin was presented with his Second Class Pin.

A wood Chopping Hike was held Saturday Sept. 11th. Boy Scouts Bob Pierce, Ronald Anstey, Billy Anstey, Chester Ferguson, James Preston, Richard Androski. Buzzy Haney and Percival Cornish were present. Each Scout supplied his own axe for the wood choping. The wood chopped will be used as fuel to heat the Scout Headquarters this winter. The trees were cut at the site of the Troops future Swim Pool on a forty-acre tract of land now in the process of being given the Boy Scouts by Mr. Daniels of Tewksbury. George Cushing donated the use of his truck to transport the boys to and from the site of woodchopping. A small load of freshly cut firewood was hauled to the Scout Headquarters. The woodchopping was in charge of Scoutmaster Dan White. There will be another hike tomorrow.

Senior Scout meeting will be held at 7:30 every Tuesday night at the Scout Headquarters on the Roman Estate on Church St. Mr. Joseph Donovan is the new Senior advisor of the Senior Scout Program. Boys age fifteen or older are welcome.
